MANUFACTURING PARTNERSHIPS

**Your manufacturing success is
our partnership commitment**

238519

Partnership Programme

Optimising performance across your manufacturing operation

- 1. Expertise & services complementing your core competencies**
- 2. More effective management of the manufacturing continuum**
- 3. Greater product success & bottom line performance**

Partnership built on quality, expertise and experience

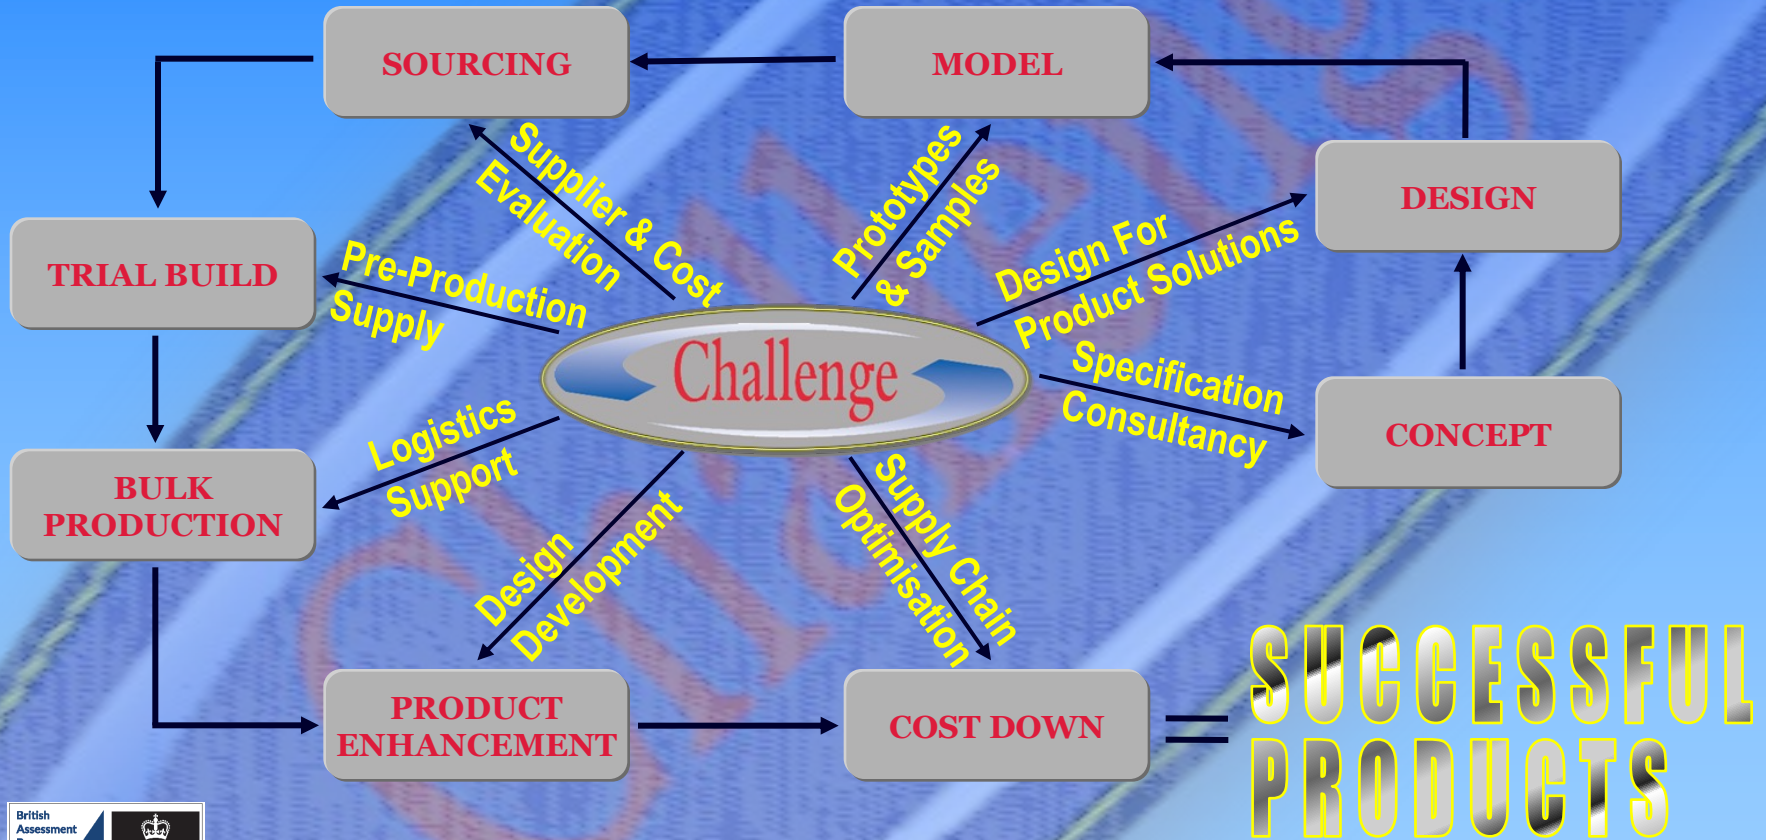

Challenge Credentials

- **30 years' experience in the manufacturing domain**
- **Global customer base across market sectors**
- **In-depth expertise of the manufacturing cycle**
- **Global sourcing & supply infrastructure**

Partnership built on quality, expertise and experience

Adding Value

Engineering Value

Supporting the engineering operation:

- **Initiating the supply chain**
- **Sourcing new tooling**
- **Controlling existing tooling**
- **Managing quality control**

Partnership built on quality, expertise and experience

Product Value

On-going product improvement:

- **Developing the design**
 - components from alternative materials
 - reduce component counts
 - shorten assembly times
- **Concept consultancy**
 - design-for-production (DFP) values
- **Specification consultancy**
 - pre-production advice

Partnership built on quality, expertise and experience

Component Value

Tailoring the production line:

- **Negotiating component supply**
- **Assembly planning & methodology**
- **Presentation of sub-assemblies**
- **Physical assembly & packaging**

Supply Chain Value

Sourcing and supplying the manufacturing cycle:

- **Central location and control of stock**
- **Inventory management**
 - measurement, re-ordering, kit and assembly supply
- **Site management**
 - counts and audits, usage and optimum quantities
- **Remote monitoring**
- **Production system integration**
- **Global logistics planning & control**
 - worldwide supply chain management

Best-price global sourcing

Partnership built on quality, expertise and experience

Costs and Pricing

Contributing to efficiency and pricing strategies:

- **Reducing production costs**
- **Reducing administration costs**
- **Balancing expenditure with income**
- **Minimising environmental impacts of manufacturing**
- **Implementing cost down philosophy**

Partnership built on quality, expertise and experience

Quality and Strength

Delivering constant improvement:

- **Dedication to quality**
 - **ISO9001 : 2015 accredited**
 - **corporate vendor approval process**
- **On-going programmes of investment**
 - **business development**
 - **training**
 - **system appraisal**

Partnership built on quality, expertise and experience

Benefits Summary

Resolute commitment to:

- **Increase productivity**
- **Reduce costs**
- **Enhance bottom line performance**
- **Improve quality**

**The success of your manufacturing business is
our partnership commitment.**
